DECLARATION OF WAR IMMINENT

APPEAL TO WORLD BANKERS' ASSOCIATION

MESSAGE FROM CANTON BODY

The following is a copy of the cablegram sent by The Bankers' Association, Canton, to similar associations throughout the world:

To the Bankers' Associations of the world:

The members of the Chinese Bankers' Association of Canton view with terror Japan's wanton bombing of defenceless towns and villages in China and the killing of thousands of non-combatants including women and children. Japan's aggression has violated existing treaties and the laws of all civilized nations. Adding insult to injury, Japan has accused China of becoming communized in the hope of justifying her atrocities. We Chinese believe that Japan's aim is to "conquer China, then Asia, and the World!" Therefore, we are fighting to save ourselves, and world democracy. We appeal to you to give us effective support in stopping Japanese barbarity, so that what are happening to China to-day will not happen again in this world.

JAPANESE OFFENSIVE ON WESTERN FRONT BEGINNING SHORTLY

STANDARD OIL COMPANY'S INSTALLATION NARROWLY ESCAPES DESTRUCTION

Tokyo, November 5: The question of whether Japan would accept mediation by a third Power in the Far Eastern conflict was answered to-day by a spokesman of the Japanese Foreign Office with the declaration that "in any case, it would be still too early to define the Japanese attitude." The Foreign Office spokesman then emphasised that the Japanese Government is still maintaining the viewpoint that the Sino-Japanese question must be solved without the intervention of a third party. Japan would therefore disregard intervention of any kind whether by the Brussels Conference or by any quarters.—Transocean News Service.

Tokyo, November 5: Official quarters here have declared that the Japanese Government has not yet reached a definite decision with regard to the question of whether formal declaration of war is to be made and "Imperial Headquarters" to be established here. Political quarters here, however, believe that formal declaration of war as well as the establishment of Imperial Headquarters here is imminent.—Transocean News Service.

Shanghai, November 5: The grand Japanese offensive on the western front is expected to start very shortly. A Chinese spokesman admits there are now four thousand Japanese troops on the south side of Soochow Creek but independent observers believe the number to be much higher. An advance force has obtained a strong footing and is slowly making headway despite powerful resistance. Meanwhile an improvement in the situation at Hongkew with the transfer of the war zone westward is seen by the arrival of eighty Geisha girls from Japan and a number of regular Japanese residents also returning. The Standard Oil Company's installation at Footing had a very narrow escape from destruction at noon when a Japanese bomber crashed from low hanging clouds near the compound. Fortunately the two bombs aboard failed to explode. Both pilots were killed outright.—Reuter.

F.M.S. SULTANS DONATE \$2,500,000

For Construction Of Pursuit Planes

Singapore, Nov. 5: The Sultans of the Federated Malay States have placed a sum of \$2,500,000 which is the equivalent of \$400,000 at the disposal of the British Government for the construction of two squadrons of pursuit planes. The British authorities have accepted the gift. The squadrons will probably be stationed at Kota Bharu. The present donation is the Malay States' third voluntary contribution towards rearmament.

The first contribution was a gift of a sum of \$250,000 by the Sultan of Johore. The second was the Malay States' administration's donation of a yearly sum of \$500,000 for rearmament purposes.—Transocean News Service.

WEDDING BELLS

Naval Officer Weds At Cathedral

FELTON—JONES

AMAZING RECOVERY IN CANTON.

Business Almost Normal

EUROPEAN'S TRIBUTE TO KWANGTUNG GOVERNOR

"The manner in which Canton has recovered from her recent troubles and has resumed her normal life has been amazing and is a tribute to the splendid administration of General Wu Te-chen, the Kwangtung Governor," said a well-known European merchant of Canton yesterday in conversation with a representative of "The Daily Press."

Speaking of conditions in the city, our informant said that although business had been hit by the blockade and the bombings, the buoyancy of the export trade was surprising in the circumstances. Talk of business being at a standstill in Canton was a lot of nonsense and there was no despondency, at any rate not among European firms.

The visitor from Canton thought this was almost solely due to the energetic action taken by the Governor when business people began to leave the city, panic-stricken, after the Japanese bombings began. A large number of refugees were now returning to Canton and the business life of the city was rapidly returning to normal.

FOREIGNERS' CHEERFUL

Asked whether the European community in Shameen had been inconvenienced by the railway bombings and the river barrier, our informant said everything in the two concessions was absolutely normal. The people were quite cheerful and many women and children who had gone into the interior during the air raids had now returned and were living quite happily in Shameen.

SPANISH WAR NEWS

London, Nov. 5.

Fighting in Spain is centred on the Aragon Front; the town of Barbastro was bombed yesterday resulting in sixty killed and injured. Both the Government and the Insurgents claim to have repulsed attacks to the west of Madrid.

It is reported that two seaplanes attacked a French cargo steamer off the coast of Spain but there was no damage. It is understood that a French destroyer went to the assistance of the attacked vessel.—Reuter's Bulletin Service.

It's easy to tell when you've caught a cold—you keep coughing and sneezing, and your throat is sore. Be sure to stop a cough or cold before it settles on your chest and turns to bronchitis or something more serious still. You can do this by sucking Peps antiseptic breathable tablets. Peps give off rich medicinal vapours which are breathed through the air-tubes into the lungs. Peps soothe the throat, relieve stuffiness, overpower cold and flu germs and protect you against infection. Try them!

SEQUEL TO ACCIDENT

Naval Officers On
Driving Charges

COMPENSATION TO MRS. ALFRED HICKS

The unfortunate accident at Shek-O last month when Mrs. Hicks, widow of Mr. Alfred Hicks, Editor of the "Hong Kong Telegraph", was seriously injured, had a sequel at the Central Magistracy yesterday when Pay-Lt. J. O. Britton, of H. M. S. Tamar, appeared before Mr. R. A. D. Forrest to answer charges of driving a motor cycle without a licence and driving in a dangerous manner on Shek O Road on October 16. With him appeared Lt.-Cdr. R. C. Hovenden, owner of the cycle, who was charged with allowing an unlicensed driver to drive it.

Traffic Inspector S. C. Saunders, prosecuting, said Lt. Britton had been most refreshingly frank. He himself had admitted that he was going at 50 miles an hour just prior to the accident, and at the time of the actual mishap could not have been doing much less. Nevertheless, he had to press the charge and he asked that a very substantial fine be imposed.

LOST CONTROL

Describing the accident, Inspector Saunders said defendant was driving from Big Wave Bay Road to Windy Gap, with Lt.-Cdr. Hovenden riding pillion. He came to the first straight portion of the road, and when negotiating a bend a little further up, lost control. Mrs. Hicks was at the time walking on the road, going in the same direction, on the left side, and she was struck down by something—it could not be ascertained whether by the cycle or the riders. She was still in hospital and could not say anything about the accident. She could not even remember whether she had gone for a walk that afternoon or not.

Reading a doctor's report regarding Mrs. Hicks' injuries, Inspector Saunders said she suffered a fractured skull, concussion and an injury to her back, possibly a minor fracture of the spine. She was likely to remain in hospital for some weeks yet, and there was also likelihood of permanent injury to her head.

CIVIL CLAIM

His Worship remarked that he thought it was more of a case calling for compensation for Mrs. Hicks, but Inspector Saunders said that was a question for a civil claim.

His Worship pointed out that there was no evidence beyond Lt. Britton's admission that he had been driving in a dangerous manner.

Inspector Saunders agreed that Lt. Britton had been very frank about the whole incident. He had made a statement in which he said that when he was at the bottom of the hill, his speed was about 50 miles per hour, and his speed at the time of the accident could not have been much less. It appeared that defendant tried to take the corner at a high speed, found he was too far on the left of the road

LAST STAND AT PAN CHIA-TAI

Graphic Report By Lone Survivor

With blood flowing from a shattered left leg and forming red pools on the floor of the headquarters of his Brigade Commander, a Chinese private attached to the company detailed to defend Pan Chia-Tai at all costs, just had time to make his report of the wiping out of the entire regiment before he fainted.

The following dramatic story is the report he gave.

For many weeks prior to the company's last desperate stand, the Japanese warships kept up a heavy barrage of their position, killing many and completely destroying the dug-outs.

On the morning of September 11, the ranks had been reduced to fifty men, including the company Commander Pan. The latter then the end was near. His communications were cut off so there was no means of getting in touch with headquarters for reinforcements.

The Fateful Day

So strong was the premonition he felt of the fate which would be theirs that day, that he elected to speak to his regiment of fifty, instilling courage into them, urging co-operation and promising that he would remain with them till the bitter end. Moreover, he ordered that no ammunition be wasted until the Japanese approached. They did not have long to wait. The first attack came within an

hour of his instructions. As the first Japanese column advanced, the Chinese waited grimly for the order to fire. When the enemy were within a distance of a few hundred yards, Commander Pan gave the order, and the machine-guns did their deadly work.

Outnumbered as they were, they succeeded in repulsing the first advance, but the Japanese kept on coming, knowing full well that the Chinese had only a handful of men. But it was not until their seventh attempt to rout the Chinese from their position that the Japanese succeeded.

Only One Gun

By that time all the Chinese machine guns save one had been put out of commission, and forty-four of the fifty men were dead. Commander Pan was one of the survivors though, he was badly wounded.

In a last desperate stand before the end, Commander Pan planted himself firmly behind the only available machine gun and blazed away at the enemy as they advanced. Bullets from the other side fell like rain, and Commander Pan was hit in several places, but he kept on fighting. Finally, when his supply of ammunition was exhausted, he drew out his pistol, and fired all six bullets in the chamber, before he fell.

WHAT IF I DON'T PAY?

"What if I don't pay the fine, and how about \$5," asked Tsang Hung, described as a professional beggar, of Mr. R. A. D. Forrest yesterday when he was fined \$10 for mendicancy. "You will pay the fine," His Worship ordered. "and if I hear another word from you I will make it heavier."

Inspector Mair said defendant was arrested outside No. 9 Eastern Street. When searched at No. 7 Police Station he had \$20.08 on him, but refused to go on bail of \$10, offering only \$5 instead. There was nothing whatever wrong with the man and he was not even excessively elderly.

to recover, and lost control. He had said he held a driving licence in England, and there was no reason to disbelieve him. The cycle, belonging to Lt.-Cdr. Hovenden, was badly damaged.

DANGEROUS SPEED

The Inspector asked that a serious view be taken of the case, and that a substantial fine be imposed. Even if Lt. Britton had been travelling at 40 miles per hour, and found he could not get around the corner safely at that speed, his driving was dangerous.

Lt. Britton submitted a written statement of the accident, and added that he had settled with Mr. S. J. Hicks, brother-in-law of Mrs. Hicks, as regards compensation. He was paying for Mrs. Hicks' hospital expenses.

Defendant was fine \$50 on the charge of dangerous driving, and \$5 for driving without a licence.

A charge against Chau Hichung, school-teacher residing at No. 8 Chung Fung Street, of keeping an unregistered mul-tai was adjourned for 24 hours by Mr. R. A. D. Forrest at the Central Magistracy yesterday for consideration. Mr. H. W. Fraser, Mul-Tai Inspector, prosecuted.

Lt.-Cdr. Hovenden was fined \$5 for allowing an unlicensed driver to drive his cycle.

Look at Your Skin

Skin Specialists declare that 90 out of every 100 women suffer from skin outbreaks, spots, pimples, blotches, and 'muddy' complexions UNNECESSARILY!

Ugly complexion faults are woman's most common enemy. Few escape. Some resort to heavy powdering in an effort to hide them. Whilst others, due to consistent wrong treatment, cause the skin to become highly sensitive, coarse and blemished.

To make your skin clear and healthy, your complexion fresh and smooth, use Cuticura.

Cleanse the skin with Cuticura Soap twice a day. Its luxuriant and mildly antiseptic lather is soothing and softening; washes away pore-deep dirt which causes blackheads, enlarged pores and ugly complexion defects. And to rid the

skin of pimples, skin outbreaks, rashes or irritations use Cuticura Ointment direct on the affected part before washing with the soap. Its antiseptic action kills germs, soothes and heals and quickly clears the skin.

Try Cuticura to-day. See how soon your skin improves, your complexion becomes smoother, more attractive than ever before.

PAGE FOR THE CHURCHES

CATHOLIC NEWS AND NOTES

THE DAY OF THE DEAD

The service for the souls of the dead which was held in the Catholic cemetery in Happy Valley on last Tuesday, All Souls' Day, brought together a very great number of people of all nationalities. It is a ceremony that is repeated all over the world, for it is the universal custom of Catholics to pray in the cemeteries as well as in the churches on that day. The note of sadness in the Catholic liturgy is expressed with great dignity and is always accompanied with expression of hope.

The preacher at this service was Fr. H. de Angelis, associated for the past few years with the Rosary Church, Kowloon, and now Chaplain to La Salle College. In preaching first in English and then in Chinese he showed the remarkable mastery which he possesses in the two languages. Hearing his eloquence in both of them one is not surprised to be told that he is regarded as an orator in his native Italian.

ARMISTICE DAY

Another Day of the Dead occurs during the coming week, when Armistice Day will be celebrated. The celebration of this day is in a sense the most remarkable legacy of the Great War. Those who remember the original day of the armistice, and the wild scenes that characterised it in London will appreciate the contrast between that day and the anniversaries. The evolution was a gradual one. During the first few years rejoicing was the predominant note; respectful memory succeeded it—now for Catholics, prayerful memory is the chief characteristic of the celebration. In this year, as in previous years, there will be a special Mass and Service of Remembrance in St. Joseph's Church at 9 a.m.

It is an interesting coincidence that Armistice Day should have occurred on Martinmas, the feast of St. Martin, the soldier saint. St. Martin was the son of a Roman Officer, and was himself a member of the imperial cavalry. In the fourth century, before he became a soldier for Christ, he was Bishop of Tours.

A MARTYR IN CHINA

It is nearly a century since the death of the first person to be honoured officially by the Catholic Church as a martyr for the Faith in China. His name is Blessed John Gabriel Perboyre, and his feast is celebrated tomorrow. He was a Frenchman, and a professor, and it was only at his own earnest request that he was allowed to travel to work in China. He reached China in 1835 and worked mainly in the mission of Honan. He was an intrepid traveller and covered a lot of ground in Central China, evangelising every place on his way. Traces of his work still exist. He spent only five years in China, and, considering that some of this time was spent in acquiring a knowledge of the language, and some of it in prison, it is remarkable to see all that he was able to accomplish. His imprisonment ended with a very cruel death at Wuchang.

THOSE WHO ARE CALLED BLESSED

Mention of the beatification of this French martyr in China recalls the fact that people of very different types are raised to the dignity of being called "Blessed" in the Catholic Church. One who has recently been proposed as a future recipient of the honour is a French lady who died shortly before the outbreak of the Great War. She was a wealthy Parisian lady named Lesur, whose husband was a prominent industrialist and an unbeliever. She was a woman of brilliant gifts, but, though she regretted her husband's unconcern about all that she prized most, she did not try to convert him by argument, but contented herself with praying for him. He was greatly attached to her and admired her remarkable resignation in suffering, but it was only after her death when he read a diary that she left that he was moved to reconsider his attitude towards divine things. He prayed then for faith, and it came. He is now a Dominican priest.

THEOSOPHICAL SOCIETY

"Understanding the Light-bringer" was the title of Mr. John S. Greenberg's lecture at the local Theosophical Society last Thursday.

Using a novel method of approach Mr. Greenberg said that since "Understanding" came only spontaneously he had not written out a lecture but was going to rely on the inspiration of the moment; just as he hoped that the audience would understand him at the moment.

The speaker noted the various obstacles in promoting good relations throughout the world. There were many fine movements for progress but which hindered each other's work by fanatical proselytism. One could heal the breach by recognising the fact that too often the movements were too big for their adherents and to retain interest in their work each movement would have to show their excellence above all others even condemning other parallel movements. The method to produce more harmonious conditions would be to concentrate more fully on the constructive characteristics of the movements.

After attempting to clear up other misunderstandings and commenting on the growth of tolerance and intuition under standing of the modern day Mr. Greenberg concluded and a most illuminating discussion took place.

CHRISTIAN SCIENCE LESSON SERMON

FIRST CHURCH OF CHRIST, SCIENTIST

Subject: Adam and Fallen Man
The subject of the lesson sermon in all churches of Christ, Scientist, to-morrow, November 7th, will be "Adam and Fallen Man."

The Golden Text will be: "It is the spirit that quickeneth; the flesh profiteth nothing." (John 6:63.)

Among others the following citations will be read from the Bible, "And the Lord God said, Behold, the man is become as one of us, to know good and evil; and now, lest he put forth his hand, and take also of the tree of life, and eat, and live for ever: therefore the Lord God sent him forth from the garden of Eden, to till the ground from whence he was taken. So he drove out the man; and he placed at the east of the garden of Eden Cherubims, and a flaming sword which turned every way, to keep the way of the tree of life." (Gen. 2:22-24.)

The lesson sermon, will also include the following passages from the Christian Science Textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "No one can reasonably doubt that the purpose of this allegory—this second account in Genesis—is to depict the falsity of error, and the effects of error. The literal meaning would imply that God withheld from man the opportunity to reform, lest man should improve it and become better; but this is not the nature of God, who is Love always—Love infinitely wise and altogether lovely, who 'seeketh not her own.' Truth should and does, drive error out of all selfishness. Truth is a two edged sword, guarding and guiding. Truth places the cherub wisdom at the gate of understanding to note the proper guests. Radiant with mercy and justice, the sword of Truth gleams afar and indicates the infinite distance between Truth and error, between the material and spiritual—the unreal and the real." (Pages 537 and 538.)

BETTER VALUE THAN EVER

The Gillette No. 77 Set illustrated here, which contains the latest Gillette razor, three Blue Gillette slotted blades and two blade holders in a new type of moulded box, has these definite advantages.

The razor is made in two pieces instead of three, as formerly, thus making it easier and quicker to clean, assemble and use.

The blades are made by the new electrical-tempering process. They give not only closer, cleaner shaves than you have ever had before, but also more shaves per blade.

The case is ideal for hot and humid climates as it is so easy to keep clean.

Ask your dealer to show you a No. 77 Set—one of the most popular that Gillette have ever made.

STAR DUST

Alan Mowbray, hitherto a free-lance, has signed a seven years' contract with Hal Roach, for whom he appeared in "Topper". Roach has also signed Roland Young to an exclusive contract, which comes into force when Young finishes his work with Jessie Matthews on "Sailing Along."

CAPTAINS COURAGEOUS

One of the great sea stories of modern literature, Rudyard Kipling's thrilling saga of the Gloucester fishermen, comes to the King's Theatre to-day with Metro-Goldwyn-Mayer's picturization of "Captains Courageous" with Freddie Bartholomew, Spencer Tracy, Lionel Barrymore and Melvyn Douglas in the leading roles.

For the first time in his screen Freddie Bartholomew plays a wholly American boy, a wide departure from any previous role. As Harvey Cheyne he is the pampered son of a millionaire who has never known the meaning of work and worthwhile effort. Bound for Europe on a super-liner he falls overboard off the Newfoundland banks and is picked up by a fishing dory manned by Spencer Tracy, the latter playing the part of Manuel, a Portuguese fisherman. This role, the most colourful that Tracy has yet had, rivals even that of the priest in "San Francisco."

WEE WILLIE WINKIE

Kipling's colourful characters live glamorously, adventurously and courageously on adventure's last frontier in the Twentieth Century-Fox picturization of his famed "Wee Willie Winkle," which opens at the Queen's and Alhambra Theatres, with Shirley Temple and Victor McLaglen in the starring roles.

From the heart of mighty India, where all the world's wild and strange, where the British raj ends at Khyber Pass, in the land of the Bengal Lancers, comes this glorious adventure of the Scottish Highlanders in action and of the little girl who won the right to wear their plaid.

The most spectacular production in which Shirley Temple has yet appeared, "Wee Willie Winkle" gives Victor McLaglen a powerful role as a fearless, fighting fool, and provides splendid opportunities to C. Aubrey Smith, June Lang, Michael Whalen, Cesar Romero, Constance Collier and young Douglas Scott.

NIGHT MUST FALL

Something decidedly new came to the screen of the Majestic Theatre yesterday in Metro-Goldwyn-Mayer's "Night Must Fall" with Robert Montgomery and Rosalind Russell.

Skilfully directed by Richard Thorpe, this daring story presents an entirely new technique for crime fiction on the screen. Without the element of mystery, the story introduces a pathological killer whose mission is known to the audience before he starts to act.

"Night Must Fall" daringly presents its problem to the audience in its initial sequence and from then to the last scene one thrill follows another. The drama is lightened with liberal comedy and an amazing romance between Montgomery and Miss Russell.

"Night Must Fall" is different, daring and decidedly entertaining screen fare.

CROSBY BROS.

Bing Crosby and his brothers, or his brothers anyway, seem to believe in family solidarity.

Everett and Larry Crosby made a good thing out of writing and publishing brother Bing's biography. Now they're trying to sell it as a screen play, with Bing starring as himself.

The chances of seeing Bing in a singing autobiography might be better if Paramount hadn't already got some half-dozen stories all ready waiting for him.

Just at present, Bing has been busy with his life's serious work, horseracing. But as soon as he gets back from Saratoga, he'll start work on that picture with Beatrice Lillie.

It was once called "English Derby," but so many titles have been mentioned that none can be guaranteed.

One big—one small—both soldiers of the Queen, Shirley Temple and Victor McLaglen starred in the Twentieth Century-Fox picturization of Rudyard Kipling's "Wee Willie Winkle."

FREDRIC MARCH REVERTS TO COSTUME

Although he had been doing very well lately in modern dress, Fredric March, who co-starred with Janet Gaynor in "A Star Is Born" and with Olivia de Havilland in "Anthony Adverse," has temporarily reverted to costume at the request of Cecil B. de Mille.

In "The Buccaneer," March will play the pirate Lafitte, the scourge of the Caribbean and the ally of Andrew Jackson against the British at the Battle of New Orleans in 1815. The film will include the whole routine of piracy. There is an excellent supporting cast headed by Akim Tamiroff and Walter Brennan.

Margot Graham will be one of the ladies in the story.

The other big feminine role goes to Paramount's continental importation, Francisca Gaal, whom De Mille restrainedly describes as "a youthful combination of Helen Hayes, Mary Pickford, Elizabeth Bergner and Clara Bow."

If Frank Capra settles his lawsuit with Columbia to his own satisfaction he plans to join United Artists. He would direct Claudette Colbert in "The Women."

MONTGOMERY BECOMES A PAINTER

Once more teamed with Rosalind Russell, Robert Montgomery, after his brief excursion into the horrific, "Night Must Fall," half returns to his old play-boy role in the new M.G.M. production, "Live, Love and Learn."

As partner his early candle-burning as a hard-up painter, Montgomery has Robert Benchley, whose inebriate, humors enliven his friend's life but tend to exasperate his own wife, played by Helen Vinson.

The story is mainly fun and games until Montgomery wins sudden artistic success, and lets it go to his head.

THE MILWAUKEE ROAD

SUB-COMMITTEE TO BE APPOINTED

Brussels Conference Goes One Stage Ahead

Brussels, Nov. 4. When the Conference adjourned at 5 p.m. it was learnt that it had accepted, in principle, the proposal to appoint a small sub-committee to draft a reply to Japan, to investigate the possibilities of Japanese co-operation and eventually to offer its good offices as mediator between China and Japan.

In the afternoon session the President drew attention to the Japanese reply and pointed out that while it recognised the Nine Power Treaty, it raised certain points which might suitably be discussed.

Mr. Norman Davis suggested the appointment of a sub-committee with the view to securing Japan's collaboration. Messrs. Anthony Eden and Delbos supported Mr. Davis and suggested that the sub-committee might also offer its good offices towards a settlement of the conflict.

JUSTIFIED TO GO ON

Mr. Davis then emphasised that the conference was within its rights to carry on even if Japan was not present, and Signor Marelli suggested that the sub-committee might put forward the proposal that the two countries might enter into direct negotiations. This met with a vigorous reply from Mr. Norman Davis who asked whether the Italian delegate wished to imply that the other countries were not interested.

The appointment of a sub-committee will entail a brief interruption in the work of the Conference and Mr. Eden and M. Delbos will probably return to their respective homes to-morrow.

MEETING POSTPONED

The meeting of the full committee scheduled for 8 p.m. has been postponed until 10.30 a.m. to-morrow. It was to deal with the number of the composition of the sub-committee and the adjournment seems to imply that there will be some difficulty in agreeing to the composition.

While Belgium, Great Britain and the United States naturally will be members of the sub-committee there were reasons to believe that Italy would insist on a place if France was elected, hence the adjournment to enable the

conversations to be held during the night.

The general idea seems to be that a compromise will be reached on the basis of a larger sub-committee. In any case Mr. Anthony Eden and M. Delbos have arranged to leave Brussels to-morrow and in their absence the Conference will proceed with the task of approaching the Japanese Government by drafting a reply to the Japanese Note, and the memorandum which will be sent to the Belgium Government in response to the original invitation.

NOT TOO LARGE

It is understood that two points will be emphasised. Firstly, the Conference is not an emanation from the League of Nations and secondly, it is not too large as the Japanese suggest, because all the nations represented have a big interest in the Far East.

It is expected that it will be possible to resume the full meetings in a week or ten days, and while the general opinion seems to be that Japan's reply will be in the negative, it is believed in some quarters that she will make her acceptance conditional on the recognition of all developments in the Far East since the Washington Treaty, especially the conquest of Manchukuo.

DRAFT REPLY

Brussels, Nov. 4. The outcome of last night's talks is that it has been arranged M. Spaaks should prepare a draft reply to Japan for to-day's meeting, thus giving more time for the formation of the proposed sub-committee. — *Reuter*.

ANGLO-BELGIUM FRIENDSHIP

London, Nov. 4. The Chancellor of the Exchequer, Sir John Simon at the Anglo-Belgium Union annual dinner in celebration of the 36th birthday of the King of the Belgians said the bonds of friendship and mutual understanding which bound Belgium and Britain so closely together were rooted so deep in the past. They hoped that the continued association between the two countries might be an association of comradeship in the work for peace and for establishing the widest European understanding. In a fortnight's time Britain was to have the great honour and privilege of a visit from the King of the Belgians who would be greeted not only as a good King but as a great and devoted and high-minded man. — *British Wireless*.

NEW BELGIAN GOVERNMENT

Brussels, Nov. 4. The King of the Belgians to-day entrusted Paul Henri Spaak, Minister of Foreign Affairs, with the task of forming a new Government. The Government is to be one of National Unity.

It was stated here that M. Spaak has accepted in principle, but will consult his political friends before making his final decision known. — *Transocean News Service*.

HELEN WILLS MOODY'S DENIAL

San Francisco, Nov. 5. Helen Wills Moody told *Reuter* that she has not signed a contract, does not intend to, and has no plans to turn professional. At the same time, well-informed circles insist that negotiations are under foot, and it is thought that the only reasons for withholding announcement is the question finding a suitable opponent, which question has not yet been decided. It is pointed out that Perry also denied intentions of turning professional until the day the contract was signed. — *Reuter*.

BRITISH COUNT LOSSES

Shanghai Property Damage To Be Assessed

With a view to ascertaining the extent of damage suffered, British subjects with property in Hongkew, Wayside and Yangtsepo districts are requested to get in touch with the British Consulate. Meanwhile, Japanese military authorities assert that they will do the utmost to reopen the districts for foreigners as soon as possible. Foreign shipping interests officially complained to the Shanghai Municipal Council against racketeering on the Shanghai waterfront, asserting that since the start of hostilities a gangster element has gained monopoly of the wharf coolie market and is charging exorbitant rates for working cargo. The danger of violence frightens away other coolie labour. — *Reuter*.

COTTAGES SAVED

London, Nov. 4. Twenty-three fishermen's cottages at Newlyn have been saved from destruction according to an announcement by the Ministry of Health. Other cottages also may be saved or compensation paid to the owners if demolished. Recently a number of fishermen sailed to London from Newlyn and petitioned the Ministry of Health to rescind the order of condemnation of the old cottages which are a picturesque aspect of the town. — *Reuter's Bulletin Service*.

WIRELESS STATION FOR TRISTAN DA CUNHA

London, Nov. 4. The Colonial Office has given permission for the establishment of a wireless station in Tristan da Cunha under the direction of the leader of the Norwegian expedition which will make a meteorological study of the island as well as its flora and fauna. — *Reuter's Bulletin Service*.

JAPAN TEACHES THE POWERS

How They May Help To End War To Suit Her Purpose

Tokyo, Nov. 5. The deliberations at Brussels are regarded to be successful only if they result in a general realisation that the current dispute must be settled only through direct Sino-Japanese negotiations, declares the "Nichi Nichi".

"If, however, the Powers pin faith to the illusion that the best way to enhance their interests in China is to aid the anti-Japanese Government at Nanking, they will merely aggravate the current incident."

The newspaper adds that Britain is "using every device" to help Chiang Kai-shek and secure her rights and interests in China. Other powers "probably desire to follow London's lead, but the 'Nichi Nichi' points out that the Powers can help to settle the dispute by 'persuading China to reconsider her stand and understand the nature of Japan's demands and position.' — *Reuter*.

BELGIAN CABINET CRISIS

Difficulty Of Forming Government May Lead To Coalition

Brussels, Nov. 4. M. Hubert Pierlot has informed King Leopold that he is unable to form a Cabinet.

He is the third Minister to assume the task of forming a Government and who has had to abandon the attempt.

The crisis has now lasted ten days and it seems that a coalition Government will be formed, as none of the three parties—Liberals, Catholics and Socialists—is strong enough to hold a majority in the Legislature. — *Reuter*.

WINDSORS' TRIP TO AMERICA

Rumour Says May Be Abandoned

Duke Displeased At A.F.L. Denunciation Of Bedaux

London, Nov. 5.

The American Federation of Labour's resolution respecting the Duke and Duchess of Windsor has caused a spate of conjecture, and it is widely suggested by American correspondents that the Duke is displeased by the American reaction and may cancel the trip.

Reuter's New York correspondent quotes an interview in the "Baltimore Sun" wherein Mr. Bedaux said, "out of a hundred chances that the Duke and Duchess will come, about ninety are gone," adding that the Duke on the long-distance telephone refused an offer by Mr. Bedaux to withdraw from the tour.

Reuter's Paris correspondent says those closest to the Windsors declare that there is no question of a change of plans, and that the Duke and Duchess will leave on Saturday as arranged. — *Reuter*.

WINDSORS WILL HAVE TEA AT WHITE HOUSE

Washington, Nov. 4. It is announced at the White House that the Duke and Duchess of Windsor will be entertained to tea by President Roosevelt on November 12.

Mrs. James Roosevelt, Jr., will act as hostess.

Mrs. Franklin Roosevelt is leaving Washington to-day for a lecture tour and will not be in Washington during the visit of the Duke and Duchess of Windsor. — *Reuter*.

TRAIN COLLISION

Rio de Janeiro, Nov. 4. Many arrests have been made following a train collision in which seven were killed and wounded. The arrested persons are allegedly charged with having sabotaged the train. — *Reuter's Bulletin Service*.

By Dr. Scott, M.D. Paris

If you want an astonishing demonstration of how quickly and completely acute indigestion can be stopped, just take a level teaspoonful of 'Bismarated' Magnesia in water—four tablets are equally effective. I have found that the moment 'Bismarated' Magnesia reaches the stomach you feel the pain abate; flatulence is relieved, heartburn and sourness pass off, the feelings of weight and oppression are lifted, and in five minutes the pain has disappeared. You can get 'Bismarated' Magnesia from all Chemists and Stores. I advise you to get some and try it after your next meal.

NAVAL TREATIES RATIFIED

London, Nov. 5. Instruments of ratification of the Anglo-German and Anglo-Soviet Naval Agreements of July last were exchanged to-day at the Foreign Office. The Agreements will come into force as from to-day.

These bi-lateral Treaties run parallel to the London Naval Treaty of 1936, and provide for qualitative limitation and exchange of information in regard to future naval construction. — *British Wireless*.

ROYAL NAVY

LAUNCH OF THE TARTAR

The destroyer Tartar will be launched shortly at the Tyne shipyard of Swan Hunter and Wigham Richardson, Limited, where she was laid down in August, 1936, in company with the Somali, launched on August 24 last. Machinery for the two vessels is being supplied by the Wallis Shipway and Engineering Company, Limited.

These destroyers belong to the 2nd Tribal Flotilla, and with the launching of the Tartar five of the nine units of the flotilla will be afloat. Another is the Ashanti, to be launched on November 5 at Dumbarton. They are the largest destroyers ever built for ordinary service in the Royal Navy, with a displacement of 1,850 tons, about 500 tons more than most of those now in commission, and with a main armament of eight 4.7in. guns, instead of four or five as in earlier types.

About 10 earlier vessels of war have been called the Tartar since 1889, when the name was given to a 32-gun frigate which fought at Malaga. It was later borne by a succession of ships, some of which served during the Seven Years' War and the Napoleonic Wars. A screw frigate of the name was employed in the Russian War, and a small cruiser, launched in 1886, in the South African War, landing men and guns. The last Tartar was one of the original Tribal class destroyers of 1907, and served in the Dover Patrol during the War. She was mined in June, 1917, but was towed into harbour and repaired. In 1919 she was paid off, and was sold in the following year.

TRAFALGAR SHIP-NAMES

During the past year four names of ships from the list of the British Fleet, at Trafalgar, have been adopted for new cruisers—Euryalus, Naiad, Phoebe, and Sirius. The Euryalus, Captain the Hon. Henry Blackwood, and Naiad, Captain Thomas Dundas, were 38-gun frigates in the weather division under Nelson; and the Phoebe, Captain the Hon. Thomas Bladen Capel, and Sirius, Captain William Frowse, 36-gun frigates in the lee division under Collingwood. Of the 33 British ships at Trafalgar the names of 12 are now in use, the others being the Victory flag-ship, at Portsmouth; Defiance torpedo schoolship, Devonport; Britannia, for the R.N. College, Dartmouth; Royal Sovereign and Revenge, battleships; and Ajax, Neptune, and Orion, cruisers. Of the 21 names which have gone out of use 15 were borne by ships which served in the late War.

ACT OF GALLANTRY

An act of gallantry during the September typhoon gains mention in the latest Area Orders, which state: During the early morning of September 2, 1937, whilst the S.S. Talamba was being driven ashore at Devils Peak No. 831885, Gunner H.V. Ockwell, 12th Heavy Battery, Royal Artillery, swam from the shore to the ship a distance of some 25 yards in a very rough sea, in an attempt to get a rope to the ship.

Although it was impossible to get a rope to the ship, this action enabled the Master of the Talamba to communicate his predicament to his Agents in a minimum of time.

The General Officer Commanding directs that entry be made in the Regimental Conduct Sheet of Gunner H.V. Ockwell in accordance with King's Regulation, 1935, paragraphs 1675 and 1680 (xvii).

SNATCHER CAUGHT

Chan Lam-shun, 28, unemployed, was given a total of 12 months' hard labour by Mr. R. Edwards at the Central Magistracy yesterday on charges of snatching a pair of earrings from a 58-year old woman in Connaught Road and returning from banishment. In addition he will receive 15 strokes for the first offence.

Another banishment, sent away for life in May this year, was also given a year's sentence.

SAPPERS NOT GUILTY OF DESERTION

Found guilty of being absent without leave, but not guilty on the charge of desertion, Sappers A. Andrews and F. Bird were each sentenced to 90 days detention. The findings of the Court were confirmed by the authorities who, however, remitted 55 days of the sentence.

When they stood trial by Court Martial last month evidence was given that the men went on board the Kitano Maru at Kowloon Dock on September 18 to see a friend off. They fell asleep and did not wake until they were going through Lyeemum Pass. They were then refused permission to go ashore on the pilot's boat and were housed among the refugees on board for the remainder of the trip, later being returned home.

SPORADIC FIGHTING

Shanghai, Nov. 5. Fighting on the south bank of the Szechow Creek has assumed a sporadic nature, with the Japanese units which crossed the creek struggling to hold their precarious footholds and to effect contact with each other and with the Chinese forces vigorously assaulting the different units to keep them apart.

It is estimated that the Japanese disconnected lines south of the creek measure not more than 1,000 meters in total length.

Intermittent close-range fighting takes place at Yaochichai, Wuchiklu, Chachichai, Tingtuo, Peishinchin, Chenchiau and Chowchichiao, where either the Japanese units which succeeded in landing attempt to effect junction with each other or Japanese reinforcements north of the creek, to cross over.

CHARITY BAZAAR TO-DAY

The annual Bazaar organised by the Society of St. Vincent de Paul in aid of the poor will be held to-morrow (Sunday) at Chatham Road, Kowloon, in the open space near the Rosary Church. This was the venue of the Bazaar also last year, and a new scheme of decoration is being adopted this year which will give the ground a very attractive appearance by day and will make possible very elaborate illumination at night.

The object of the Bazaar commends itself to all charitable persons, for everything that reaches the Society is spent on the poor—there are no overhead expenses, and on account of the knowledge of the poor districts possessed by the members there is no waste. The members visit in their own homes the poor people whom they help, and they give assistance without any distinction of creed or nationality.

To-morrow's Bazaar will remain open throughout the afternoon and evening, and there are amusements to attract all. There are also attractive bargains which will be specially useful to those who wish to buy their Christmas presents in good time.

MAN COMMITTED FOR BURGLARY

Lo Wah-so, already committed to stand his trial at the November Sessions on five separate charges of burglary, made another appearance before Mr. W. Schofield at the Central Magistracy yesterday and was committed on a sixth similar charge.

The complainant was Mrs. D. A. Munroe, of 181 Munroe Street, first floor, victim of a burglary on June 22 when she lost a pearl necklace, a ring set with a pearl, some gold cuff-links, four silver swimming cups and two white blankets. Of these, only the blankets were recovered.

Detective Sub-Inspector W. N. Darkin prosecuted, and evidence was given by the complainant, P. C. Lau Chu and the accountant of the Yuen Hing Pawshop, where the blankets had been pawned.

SAFE TAKEN IN BURGLARY

Receiver Sentenced

Sentences totalling four months' imprisonment were imposed on Tang Ngai when he appeared with his wife, Cheung Mui, before Mr. K. Koen at the Kowloon Magistracy yesterday, on charges of receiving stolen property. Another woman, Lam Yut-sin, was charged with accessory after the facts and assisting to dispose of the stolen articles.

Detective Sergt. Baldwin, who prosecuted, told the Court that a burglary was committed at No. 400 Yachow Street on October 17, and as a consequence a safe, stored with valuables and a sum of \$800 in cash, was missing.

On October 31, information was received of the whereabouts of the safe, and an unnumbered hut in Castle Peak Road was raided. Defendants were found there with the safe. A thorough search revealed several of the stolen articles, including a few pawn tickets.

APPEAL ALLOWED

Before His Honour the Chief Justice Sir Atholl MacGregor, at the Supreme Court yesterday, K. C. Mark appealed against certain conviction dated June 29, 1937 of him by His Worship Mr. Eric Hims-worth, Kowloon Magistrate, for having on or before May 29, 1937 unlawfully altered or caused or permitted to be altered, the water services, without the consent of the Water Authority, contrary to the Waterworks Ordinance No. 16 of 1903 paragraph No. 23 Offences and Penalties.

Appellant was represented by Mr. F. H. Losely.

The Crown was not represented. The grounds of appeal were:—
(a) that the magistrate had not jurisdiction to hear the complaint or information against appellant by reason of the fact that there was no complaint.

(b) that the magistrate had no jurisdiction to hear the complaint or information against the appellant by reason of the fact that in the said complaint or information it was not alleged that any offence had been committed within the period of six months prior to the commencement of the proceedings.

(c) that there was no evidence that if the offence alleged had been committed it was committed within six months prior to the commencement of the proceedings.

(d) that there was no evidence that the offence had been committed.

(e) that there was no evidence that offence alleged had been committed by the appellant.

(f) that if the case for the Crown and the defence had been closed the magistrate wrongly admitted the following evidence: "To the best of my knowledge the person in charge of this matter in question is Mr. Marks, the defendant."

(h) that the magistrate wrongly admitted the following evidence: "The bills are sent for this matter to Mrs. Chan c/o Mr. Marks. The receipts are made out to the same person."

The appeal was allowed and the fine imposed to be refunded.

The safe was at the time being broken and was empty.

Both the women defendants denied the charges and were released.

into a unified nation, burning

despoilers of their homes and

If the Chinese can only hold
back the invaders for another
few months by gradually giving
way when the front lines are no
longer tenable, but yielding only
after stubborn fighting for every
inch of ground, it is quite likely
that Japan will be forced to seek
the intervention of a third party
to mediate on her behalf so as
to save her from major disaster
abroad or revolution at home.
And the Chinese, being self-
sufficient, except in armaments,
should be able to draw the
Japanese inland, force them to
keep a huge army in the invaded
territories and make the work of
their commissariat as costly and
as difficult as possible, and play
Merry Hell with their communi-
cations.

What a gigantic burden is

EVERY FILM A PRIZE WINNER!

The British film trade has
finished a year of disappointment
and financial trouble in a blaze
of triumph. Owing to the
failure in world markets of film
after film many British com-
panies have recently been forced
into very difficult positions. In
view of these things it is all the
more gratifying that at the fifth
International Cinematograph Ex-
hibition, which was held in
Venice, Britain carried off some
of the most valuable prizes.

The Cup of the Nations, given
for the best foreign film of the
year, was awarded to the Eng-
lish production, "Victoria the
Great." Another English film,
"Elephant Boy," won the cup
offered by the Ministry of Popu-
lar Culture, and was wildly
cheered by the audience that saw
it, while several British docu-
mentaries were enthusiastically
received.

How is it, people are asking,
that the international reputation
of English films is so low, while
at exhibitions like that at Venice
British pictures win so many
prizes? It is by no means the
first time that Britain has done
so well, for her pictures won
several at last year's Venetian
exhibition also. The solution of
the paradox probably lies in the
fact that Britain's film output is
enormously uneven. Her trouble
is not that she does not produce
any good pictures, but that she
turns out so many bad ones. It
is these latter that determine her
international standing in the po-
pular estimation.

Happily, Britain herself is
now waking up to the damage
inflicted by the policy of "quota
quickies," and is seeking to re-
strict the making of cheap films
that injure her reputation. Thus
it is hoped to inaugurate a new
era when she will take her prop-
er place in the cinema world.

PLIGHT OF REFUGEES

Pavement Their Home

Shanghai's pavements to-day
present a most heart-rending
scene of poverty and suffering.
With the approach of winter,
thousands of homeless who have
hitherto slept in open doorways,
because no place could be found
for them in the congested refuge
camps in the city, have been
driven to erect some sort of shel-
ter from the biting winds and
driving rains which characterise
the weather at this time of the
year. Consequently the pave-
ments are crowded with crudely
built makeshifts, some of which
house as many as five people in a
space which can only accom-
modate three at most. But de-
spite the deplorable conditions un-
der which they have to live, the
refugees show nothing but cheer-
fulness.

Meals are cooked on improvised
charcoal stoves and children are
bathed in ancient tin basins sal-
vaged from alleyways and city
dumps. Every one of them goes
about his or her business quietly,
and because of this, though the
problem is one which presents a
serious threat to both health and
traffic regulations, the Interna-
tional police force are taking a
tolerant view of the situation.

JAPAN DENOUNCED BY INDIANS IN RANGOON

Nanking, Nov. 5: The immediate
severance of all economic and
commercial relations with Japan
as a protest against her armed
aggression in China was decided
upon at a meeting of all Indian
nationalists at Rangoon recently,
according to a dispatch from the
capital of Burma.

The meeting also expressed deep
sympathy with the Chinese people
in their sufferings from Japanese
atrocities and hoped that they
would win the final victory in the
present struggle for national
emancipation as well as world
peace and justice.

JAPANESE ATTEMPT TO LAND AT YUHWAN ISLAND FAILS

Hangchow, Nov. 5: An attempt
to land marines at Yuhwan Island
off the east Chekiang coast by
four Japanese warships yesterday
afternoon was repelled by the
Chinese garrison.

Under a protective artillery
barrage and machine-gun fire
batches of blue jackets tried to
reach the coast in small motor
boats six times, but were repulsed
by heavy shelling by Chinese
batteries which commanded a high
position.

MALAYAN REVIEW

A Chance For Malaya

Mr. Alyn Probert, Commissioner of the Golden Gate Inter-
national Exposition of 1939, arrived recently in Singapore with the
object of interesting Malaya in this great San Francisco undertaking.
He has already visited Australia and New Zealand, where participation
has been promised, and the Hawaiian Islands and the Philippines
will be prominently represented.

Other countries which have shown interest in the San Francisco
Exposition are Siam and Indo-China, and Mr. Probert hopes to be able
to persuade the Malayan Governments that it will be worth their
while to take part.

One of the principal objects of the exhibition is to emphasise
the importance of the tourist trade. The countries which are re-
presented in San Francisco in 1939 will be able to bring their attrac-
tions to the notice of many millions of people. The necessity of
advertising the attractions of Malaya has constantly been urged, and
the Californian Exposition offers a good opportunity.

Malayan Metals

The "British Malaya" issues a warning against Japanese mono-
poly of Malaya's iron ore resources. In an editorial note it points
out that the existence of considerable iron ore deposits in Malaya
has been known for some time, but it is only recently that any idea
of their extent has been obtained. Japanese mining companies are
at present working four or five mines in Johore and Trengganu (Un-
federated Malay States), but recent discoveries in North Malaya sug-
gest that the biggest iron ore resources in the country have not yet
been tapped. Only last year a Japanese prospector located an iron
ore field estimated to contain at least 7,000,000 tons of high-grade
ore, and now a British syndicate has completed a survey which, ac-
cording to reports published in Singapore, has resulted in the dis-
covery of 4,000 acres where there are millions of tons of iron ore.
A Japanese company has already made an offer for the right to work
this new field, but it is believed that negotiations are proceeding
with a British company. Exports of ore from Malaya to Japan in-
creased from about 750,000 tons in 1932 to 1,412,221 tons in 1935 and
1,613,309 tons last year. Most of the ore mined in Malaya is of high
grade, containing at least 64 per cent of metallic iron. This com-
pares for high freight charges to Japan.

It is to be hoped that the Government of Malaya has this mat-
ter under consideration and that no Japanese monopoly of Malayan
iron ore will be permitted.

Mui Tsai In Malaya

At the budget meeting of the Legislative H. E. the Governor of
the Straits Settlements, Sir Shenton Thomas, in the course of his
speech said:—

"One of the most important events of the year was the issue in
January of the report of the Commission appointed by the Secretary
of State to inquire and report on the problem of mui tsai. The Re-
port has been carefully considered by the Chinese advisory consulta-
tive committees both here and in the Malay States and I am happy
to tell you on behalf of the Colony Government that I have recom-
mended the Secretary of State's acceptance, subject to variance of
a detail necessitated by local conditions of principle embodied in the
minority report, that—I quote literally—"all girls must be safeguard-
ed who for any reason whatsoever are transferred when under the
age of 12 from their parents to persons other than relatives."

"I hope that other Malayan Governments will make the same
decision. I will not go into details here because very full and care-
ful explanations will be published before the necessary legislation has
been introduced. I wish, however, to give an assurance that the law
will be made as easy as possible and will be sympathetically ad-
ministered."

"FRANK MADEIRA" IN NEUTRAL

(To the Editor, "The Hong Kong
Daily Press.")

Dear Sir—I read "Fight Fair's"
letter to-day, with much amuse-
ment.

However, one sentence strikes me
as being out of place, and that is
"It was so thoroughly funny." The
letter might have been classed
as "absurd," "nonsensical" or even
"fantastic" according to each in-
dividual's point of view, but calling
it just plain funny, is absurd,
nonsensical and even fantastic.

The said correspondent takes a
peculiar attitude in conveying his
viewpoint, which if it were taken
seriously, might start an epidemic
of "Chucklealla" (slow suffocation
by constant or endless chuckling),
and I still sincerely hope I haven't
started anything disastrous.

To tell you the gospel truth, I
am very much disappointed. I ex-
pected some opposition (though I
didn't give much chance for op-
position). What I wrote in my
letter was based on the happenings
of the past months, and to me,
it didn't need any common sense
to do that.

Writing stronger would cause my
letter to be curtailed, so I just
have to hold myself and let it
"slide," if you know what I mean.

After all, we have only to wait
and see. Personally, I was (note
the past tense) looking forward to
hearing of some intervention by
other supposedly powerful powers
in this controversy, but now that
China has almost been openly for-
saken, the field is open for Japan
to reap. If China could clear the
Japanese (just to show I'm
neutral) from China, believe me,
there's history in the making, and
to use a good old-fashioned slang
"I'll be doggoned." However, we
could not believe the news coming
from Press reports. Our corres-
pondent apparently is a firm be-
liever in this news, which I have
already stated, might be heavily
"sugared."

In conclusion, I might add that
the Brussels Conference is a wash-
out. Mr. Norman Davis crossed
the Atlantic for the fun of it.

"WHO'S WHO IN THE PHILIPPINES"

Splendid Volume

The first volume of "Who's Who
in the Philippines" is to hand. It
is a neatly-bound book and is pub-
lished by the McCullough Printing
Company.

In this edition, a copy of which
is to hand, is published a wealth
of information regarding the
Philippine Islands. Covering 175
pages "Who's Who in the Philip-
pines" includes the following:—
Biographical sketches; Chronologi-
cal Table of Events, 1898-1935
(dealing in comprehensive manner
with events leading up to the es-
tablishment of the Commonwealth
of the Philippines); constitution of
the Philippines; export statistics;
foreign trade by countries; import
statistics.

The volume also contains a list
of Governor Generals of the
Philippines; a map of the Philip-
pine Archipelago; maps showing
principal products of the main
Islands; Provinces showing cap-
itals and population; and a splendid
section devoted to pictures, in-
cluding Manuel Luis Quezon, First
President of the Commonwealth of
the Philippines and many other
leading personalities.

"Who's Who in the Philippines"
is aptly described as a biographical
dictionary of notable living men of
the Philippine Islands. It is more
than that. It is an extremely use-
ful volume and should find its way
to every library.

The volume is edited by Franz
J. Weissblatt and is being sold at
\$5 per copy.

Anyway let's see how the whole
thing will come out? Okay?—
Yours, etc.,

FRANK MADEIRA.

P.S. I am considering taking up
Japanese, so that I would not be
handicapped in the near future.

(As "Frank Madeira" is so prone
to neutrality, perhaps Esperanto
would be preferable. Editor—
"H.K.D.P.")

COUNTING THE COST

As in 1932 but in a much more
spectacular manner, the Chinese
have shown to the rest of the
world how fallible are the Jap-
anese in their calculations. The
Japanese never anticipated that
they could be held up for three
weeks by a handful, compara-
tively, of poorly trained and ill-
equipped Chinese soldiers in
1932, and though this year they
made more thorough prepara-
tions "for the subjection of the
surroundings of Shanghai, they
have again failed, and most dis-
tastefully, to make a correct esti-
mate of the strength of their op-
ponents.

Their mistake, which is noth-
ing short of stupidity, has cost
them thousands of lives and
thousands of millions of yen, for
their warlike operations in China
could not be carried on at a
smaller cost than at least Yen
20,000,000 a day, and as fighting
has been going on now for close
on to three months, the drain on
their depleted finances must be
in the neighbourhood of Yen
2,000,000,000 at least, whilst
China has been sagely conserving
her strength and wealth.

The resistance of the Chinese
has therefore so infuriated the
Japanese that, feeling the disas-
trous effects of a prolonged
struggle, they decided to resort
to a policy of frightfulness so as
to break the spirit of the Chinese,
both soldiers or civilians. But
in the adoption of these mea-
sures they have again blundered,
and most unintelligently. They
probably imagined the Chinese
as susceptible as themselves to a
reign of terror and would be
quickly demoralised into coward-
ly submission. Instead of this
they have welded the Chinese

FUTURE OF BRUSSELS CONFERENCE

Depends On Japan's Reply To Letter

Brussels, November 5. The full private session of the Nine-Power Conference held to-day will be the last for some days. M. Spaak, acting Belgian Foreign Minister, who is president of the Conference, is submitting the draft of a proposed letter to Japan on whose reply to which depends the future of the Conference.

It is understood that the letter has two principal points. Firstly, emphasising that the Conference is not under the auspices of the League and secondly, pointing out that Japan will be able to negotiate with a small body instead of the full Conference.

If the reply is favourable there will be long and tedious negotiations between China and Japan and the sub-committee for mediation which it is proposed to establish in the meantime.

If the reply from Japan is in the negative the Conference will revert to its starting point and will be obliged to seek other means for ending the hostilities.

It is considered that these two points will meet the objections which the Japanese made in their memorandum refusing to attend the Conference.

Mr. Anthony Eden, British Foreign Secretary, and M. Delbos, French Foreign Minister, are leaving this afternoon, but the American delegation, headed by Mr. Norman Davis, will be remaining for the time being.

CHINA'S OFFER

M. Spaak's letter was read at the opening of the Conference.

The Chinese delegate, Dr. Wellington Koo, Chinese Ambassador to France, then rose and offered to withdraw temporarily from the meeting if the other delegates should feel that the absence of the Chinese delegation would facilitate the discussions. Dr. Koo added, "We do not intend to relinquish our right or to evade our duty to participate in the work of the Conference."

At the request of the Italian delegate, Count Marzotti, and M. Spaak the Chinese delegation remained.

An adjournment was made at noon to enable the delegates to take cognisance of M. Spaak's draft letter.—*Reuter.*

London, Nov. 5. Sir Thomas Inskip, Minister for the Co-ordination of Defence, speaking at Darwin, said that since March orders for armament, valued at £288,000,000 have been placed while fifty-eight new establishments for the purpose of fulfilling contracts have been created and they are either Government-owned or are extensions financed by the Government.—*Reuter's Bulletin Service.*

JAPAN MAKES TENTATIVE PEACE TERMS

REGARDED AS NOT ACCEPTABLE BY GENERALISSIMO

Tokyo, Nov. 5. Japanese officialdom strenuously denies that it has made any move towards peace. Nevertheless it is freely rumoured that Japan will willingly end the Shanghai adventure, and informed opinion is inclined to the view that Herr Hitler is more likely to be acceptable as a mediator than President Roosevelt.

It is understood that Generalissimo Chiang Kai-shek has been informed of Japan's tentative peace terms but regard them as unacceptable, with the result that an armistice is not likely in the near future, as China insists on the restoration of the situation existing previous to July as well as strict observance of Article One of the Nine-Power Pact.—*Reuter.*

NO RECEPTIONS IN NANKING

Nanking, Nov. 5: Owing to the Sino-Japanese hostilities in Shanghai and North China, foreign diplomatic representatives in Nanking have voluntarily cancelled various official functions which they would ordinarily hold during normal times, according to information emanating from diplomatic sources.

The Soviet Embassy will not hold a reception on November 7 on the occasion of the 20th anniversary of the establishment of the Soviet Union. The Italian Embassy has also cancelled plans for a reception to celebrate the birthday of the Italian King which falls on the same date.—*Central News.*

SHANGHAI ROCKED BY BOMBARDMENT

Shanghai, Nov. 5. The severest bombardment Shanghai has heard for many days rocked the western district all night long as the Japanese batteries opened up fire on the Chinese positions in south Soochow Creek. Bursts of shrapnel were seen from different parts of the Settlement and the French Concession while trench mortar and machine-gun fire was plainly heard.

The bombardment is believed to be the prelude to a major Japanese drive to capture the Hungjao area. Chinese military authorities describe the night's fighting as extremely sanguinary and opine that the "big battle" is likely to break out any moment now. They admitted that the Japanese troops have gained a foothold in four villages on the south bank of the Creek.—*Reuter.*

20 KILLED IN HUNAN

Hengyang, Hunan, Nov. 3: It is disclosed to-day that more than 20 villagers were killed and 100 others injured on November 1 when a Japanese plane released two bombs at Tungshiang Village. The missiles exploded in the midst of a gathering of villagers.—*Central News.*

FIERCE FIGHTING NEAR NANZIANG

Soochow, Nov. 3: According to a report received here, a fleet of Japanese planes subjected Wushi, important town on the Nanking-Shanghai Railway, to a severe bombing to-day.

Over ten bombs were released on the station destroying one section of the track. The machines later flew over Chongchingsiang and dropped a number of bombs.—*Central News.*

PRESENTATION TO EARL BALDWIN

London, Nov. 5. Earl Baldwin was presented with an illuminated address in a gold casket by the Corporation of the City of London last night the presentation being made in the presence of the Premier, Mr. Neville Chamberlain, and members of the Cabinet.

Earl Baldwin said that he felt that Mr. Ramsay MacDonald was not given the full credit for what he did for the Government in 1931 and the succeeding year. He also paid tribute to Mr. Neville Chamberlain.—*Reuter's Bulletin Service.*

BRITISH PLAN ACCEPTED

London, Nov. 4. To-day's session of the Non-Intervention Committee succeeded in arriving at an agreement regarding the British plan for effective non-intervention. The Soviet Ambassador, M. Maisky was the sole member of the Committee to abstain from voting when it came to the discussion of granting belligerent rights.

It was unanimously decided to empower Lord Plymouth to approach both Spanish parties and to communicate to them the attitude of the European Government.

Lord Plymouth opened the session with a statement regarding a work of the Committee since the beginning of its sessions in July. Count Grandi, Italian Ambassador, stated that it had been impossible to make a headway because of the Soviet attitude, and that it had to be awaited until Russia had clarified her attitude.

Dr. Woermann, Acting German Charge d'Affairs, endorsed the Italian statement, and added that Germany was prepared to lend her support to the methods now adopted, providing all outstanding questions, including that of granting belligerent rights, were cleared up. He addressed four questions to Lord Plymouth, each intending to show that the Committee would do well to ascertain the Russian attitude.

M. Corbin, French Ambassador, drew attention to the connection existing between the control and the volunteer questions. He stated that it was the intention of the French Government to continue to enforce strict control over the Pyrenees frontier, as long as progress was being registered in dealing with the question of foreign fighters.

A vote was then taken, with the result that the British Plan was accepted.—*Transocean News Service.*

New Threepenny Bit Has Twelve Sides

London, Nov. 4. The new threepenny piece in England has twelve sides to prevent its use in shilling slot machines and gas meters. It was disclosed by Lord Dudley at a dinner of the British Gas Federation.

When it was learned the new coins could be used as shillings in operating slot machines the Royal Mint proposed a change in the shape of the coin.—*Reuter.*

DIPLOMATIC POKER

Britain Being Bluffed

London, Nov. 4. Britain's strategic position in the Mediterranean was debated in the House of Lords to-day.

Lord Strathgill (Labour) said Britain's position in the Mediterranean was extremely strong, whilst Italy's was extremely weak because of her forces in Libya and Abyssinia. But Gibraltar to-day was not invulnerable, as was once thought.

He added that international politics was like a game of poker, and Britain was being bluffed successfully all along the line.

The Marquess of Dufferin, replying for the Government, said the sole concern of Britain was to protect the Mediterranean as a highway, and this was the object of the declaration which Italy and Britain had made.—*Reuter.*

JAPANESE BOMBER BROUGHT DOWN AT KIATING

CHINESE GIVES VALUABLE LAND TO COUNTRY

At the time hostilities began, Mr. Yoh Pao-ting, Shanghai business man, was blessed with plenty of this world's goods. To-day Mr. Yoh is a poor man as money goes, but he is well-off in Liberty Bonds and is happy in the knowledge that he has aided his country to the best of his ability.

Yoh's latest patriotic act was to send to the National Committee the title deeds for valuable land he owned in the western district of Shanghai. Yoh requested that the land be disposed of and the proceeds converted into Liberty Bonds. He stipulated that he did not wish to accept the bonds and wanted to donate them to the government, which means that Mr. Yoh gave up his property to help his country.

In view of the fact that Mr. Yoh declined to accept bonds for his property there is a movement afoot to bestow upon him a government commendation for his patriotism.

CHINESE PREPARE TO RESIST

Chang Fah-kwei Reported In Command

Shanghai, Nov. 3. The determination of the Chinese to check the Japanese troops at all costs is foreshadowed by the intense military activity in the Hungjao Road area, where large number of Chinese soldiers are digging themselves in.

At one point Chinese infantrymen have dug trenches within a few yards of the British defence line at Keswick Road, which is held by the Loyal Regiment.

The Chinese are also placing long lines of barbed wire and improving their redoubts and machine-gun emplacements. Meanwhile, heavy reinforcements are arriving, chiefly from Tsingtao. It is reported that General Chang Fah-kwei, Commander of the "Iron Sides" is directing operations on the south side of Soochow Creek.—*Reuter.*

FOSSILS FISHED TWO MILES DOWN

TO LEARN CAUSE OF SEA CANYONS

Fishing for sedimentary rocks and fossils a mile or two beneath the surface of the sea has been one of the novel summer occupations of two successive years for the research ship Atlantis, floating laboratory of the Woods Hole Oceanographic Institute.

Dr. Henry C. Stetson, Harvard paleontologist seeking to learn when and how there originated tremendous submarine valleys, rivaling in depth Colorado Grand Canyon, had charge of operations. Instead of a pole, line and fishhooks, he used a power winch, five miles of steel cable and a basket-like dredging net with steel-pronged edge and steel mesh.

With a chart of Georges Bank before him, the navigator would halt directly over a known canyon. Over the side would go Dr. Stetson's "net," while the winch located in the hold of the ship paid out cable. Once the net struck the canyon bottom, the ship would proceed on its way at right angles to the direction of the canyon, thus dragging the dredge up the face of the cliff.

MOLLUSKS

From the fossil evidence uncovered, worm casts, mollusks or shellfish and tiny foraminifera, it has been established, according to Dr. Stetson, that the east coast canyons cannot be older than Pliocene, the period immediately preceding the Ice Age of 20,000 to 15,000 years ago.

Were it not for new methods of sounding the ocean bottom to determine its depth, work carried on by the United States Coast and Geodetic Survey for the benefit of the fishing industry and in the interest of shipping, these canyons would still be poorly located indentations on the 100-fathom line of charts, instead of extremely accurately determined canyons. The sounding is accomplished by the fathometer, which measures the time necessary for sound to travel from ship to ocean bottom and back again.

Such submarine canyons as those of the Hudson, Indus, Congo and Niger Rivers have been known for years and their more accurate plotting caused little excitement, but when vast canyons began turning up on continental shelves the world over, oceanographers took notice.

The theories which have been advanced to explain their origin fall into two categories, those which hold to the action of submarine currents and those which lean to stream erosion.

A PROBLEM
Those who hold the stream-erosion theory, believing such valleys to be cut by rivers or streams, will have to explain how the borders of the continents can be raised 10,000 feet or more, or how the ocean can be lowered an equal amount.

Dr. E. P. Shepard of the University of Illinois supposes that the polar ice caps may have been vastly greater than has hitherto been supposed. He estimates their thickness might have been 22,000 feet. In order to make this possible the north polar cap would have been enlarged by a complete ice-aping over of the Arctic Basin, with this used as a platform on which more snow and ice could accumulate. Recent work along the Siberian Coast supports this view.

For the present, the puzzle of how the submarine canyons originated is still to be solved. There is really no satisfactory evidence to explain the extraordinary features so far uncovered. Says Dr. Stetson:

"It would appear well-nigh impossible to raise the continental margins to the amount which is required and do it uniformly over the world. On the other hand, submarine currents do not appear adequate either. Except for a better knowledge of the extent of the topographic features and for the dating of their time of formation, they are still as much a mystery as they were when first charted."—*Christian Science Monitor.*

FALSE PRETENCES CHARGE DISMISSED

A charge of obtaining money by false pretences, preferred against Teui Kwong-yun, alias Tsui Chul-wo, merchant, of 43 Connaught Road Central, second floor, was dismissed by Mr. R. Edwards at the Central Magistracy yesterday. His Worship decided there was a lack of evidence.

Chief Detective-Inspector J. Murphy, assisted by Detective Sergeant Fraser, prosecuted and Mr. H. L. Kwai defended. The sum involved was one of \$1,500.

Chinese junks were sunk by Japanese gunfire at Pootung Point, where repeated Japanese attempts to land have been repulsed.

DOWN, BUT NOT OUT

Lone Soldier Fights Japanese While Fighting Death.

The following account of heroism behind the Chinese lines reflects clearly the true spirit of the Chinese army. The whole nation is at present united as one man, with but one single thought—to resist Japan to the last. This case, selected at random, is but one of the many thousands of similar heroic deeds now being enacted at the front.

THE LAST MAN

The date is August 14. The scene, the famous Eight Character Bridge in Shanghai.

For days the Chinese defenders of this strategic point had been trying to rush the Japanese invaders entrenched in a strongly built fortress on Cemetery Hill, to the south of the bridge. Their every attempt was met with a withering hail of bullets, and the Chinese casualties were extremely heavy. On August 13 they were threatened with complete annihilation unless reinforcements arrived.

The following day these reinforcements arrived in the form of one company. They were ordered to rush the fortress, and this they did to the last man. That man was Private H. C. Chow who, though left for dead, was alive but badly wounded and unconscious.

When Chow regained consciousness, the attack was over and all was quiet save for the sound of

constant gunfire. He tried to rise, but found that his two legs were almost completely shattered. With a great effort he managed to drag his pain-racked body behind a clump of bushes, and there took stock of his surroundings.

He noticed that he was now at the rear of the Japanese fortress and from this position he would be able to account for at least a few should the Japanese soldiers venture into the open. He cocked his rifle and waited, but his failing strength caused him to fall unconscious once more and it was not until three days later that his opportunity presented itself.

HIS OPPORTUNITY

Early in the morning of August 17, the Japanese launched a bayonet attack against the small remaining handful of Chinese troops gallantly holding the Eight Character Bridge. The shouts, which filled the air as the two sides came to clutches woke Chow, and with what little strength he had left, he took aim.

Further Chinese reinforcements which arrived just in the nick of time and succeeded in driving the Japanese back, came upon Chow just as he was breathing his last.

"I was determined to kill the Japanese aggressors as long as I had any spark of life left in me," were the final words he spoke.

WOLFRAM ORE THEFT

Chan Yuen-fai, 19, unemployed, appeared before Mr. R.A.D. Forrest at the Central Magistracy yesterday charged with larceny, with others not in custody, of 20 cattles of wolfram ore from Wong Tam, 49, at Connaught Road West on Thursday.

Inspector Mair said these gangs who were making themselves such a nuisance to the police in the Central District had now moved further west and he was beginning to have trouble with them. The ore was valued at \$60, and of this only \$30 had been recovered. Two months' hard labour was imposed.

CATTLE DISEASE IN GERMANY

Berlin, Nov. 4.
The German nation, in an official communique, has been informed of the gravity of the mouth-and-foot disease in western Germany, where, despite every effort to localise the epidemic, upwards of two thousand farms have lost a great part of their cattle stock.

As one of the first consequences of this epidemic, Germany sees herself compelled to import a large additional consignment of butter. It appears that the epidemic found its way to Europe by the import of infected cattle from North Africa via Marseilles, and spread quickly through France, Belgium, Luxembourg, then affecting western Germany.

The German authorities have been combating the disease by placing the strictest restrictions on travel in the infected areas of the Pfalz, the Saar, Baden, where bans have been placed on football matches, political and social meetings.

The disease has so far not appeared in its most malignant form, although it has already meant the destruction of a large number of calves and young pigs.

It is recalled that the foot-and-mouth disease of 1920-21 cost the German Reich 480 million Reichsmarks, but it is hoped that the present outbreak, which is or a milder sort, will not reach that stage.

SHIHING PASS TAKEN

Peking, Nov. 4.
The Japanese scored a decisive success in Shansi, according to Japanese reports, when the Shihing Pass, 30 miles from Taiyuanfu, was captured.

The Pass, which is of great strategic importance, was captured by the motorised Fukuda detachment, closely co-operating with the Infantry.

It is also stated that Japanese forces allowed the Chinese no time to occupy the prepared defence lines at Chang-che-chen, while in the meantime a Japanese cavalry detachment reached Anlo-Chen, 24 miles from Taiyuanfu.

NO REMITTANCE OF MONEY TO JAPAN

Shanghai, Nov. 3.
Bankers here have started a movement not to remit any money to Japan as a beginning to sever economic relations with that country. Banknotes, cheques and drafts of Japanese banks are not honoured by Chinese banks here.

Posters appeared in Pootung, Nantao and the foreign concessions urging to resist the enemy to the end. Compromise is opposed, said the posters, which added that traitors and pro-Japanese elements must be eliminated.

GOLD AS WORLD'S BEST SECURITY

London, Nov. 4.
The returning popularity of gold as the world's best security was forcibly portrayed at today's London fixing when buyers paid a premium of nine pence over the American shipping party which is the highest figure since the stampede for gold after the collapse of the European poed bloc last autumn.

Well-informed quarters are of the opinion that the rush for gold recently was accentuated by the unfavourable United States industrial outlook. Many continental investors with large holdings of American securities are selling out on the fears of further depreciation and converting the pro-

PHILIPPINE MINING NEWS

BICOL IRON AND METAL Mining Company, Inc., has not paid its more than 80 labourers yet for the months of August, September and October. The labourers who are working in the mines in Batan Island, Albay, are reported eating root crops as the creditors in the town closed all their accounts.

The labourers are earning from P.80 to P.70 a day, and it was reported that their families are complaining for they have not received any support from their husbands yet. Amadeo Castillo is the foreman in charge of the work in the mines.

STA. CATALINA GOLD Mines, announces that the property in Paracale, Camarines Norte is undergoing extensive tunnelling and exploration work. The office of the firm informed the Bulletin that the work now being conducted in the mines is going smoothly and the results are most encouraging.

Samples taken from the five tunnels it was disclosed show indications of high values.

SPLENDID DEBUT AT GLOUCESTER

Hugo And Jacqueline

A large crowd was present at the Gloucester Hotel last night when Hugo and Jacqueline made their debut. The dancers gave a brilliant performance and each number was received with warm applause.

Opening their programme with "White Waltz" which was very well executed, Hugo and Jacqueline next danced the Minuet with grace and skill.

Another number which won much applause was the Cake Walk followed by a special request, the Can Can. In the latter number, Jacqueline was splendid. She was dressed all in black, wore a black hat with a green feather and looked very striking.

Hugo and Jacqueline brought their delightful programme to a close with the Bolero and a Rhumba which was given as a request number. The New Gloucester Orchestra also played and met with unqualified success.

Amazing Recovery In Canton

(Continued from Page 1)

Our informant was doubtful whether the river barrier would be removed completely until the Sino-Japanese troubles have ceased.

"The boom was placed because of a fear of attack by the Japanese navy and that fear still remains. If anything worse than ever, after the Japanese victories in the north," he said, "and I do not think there is going to be any change there."

JAPANESE WASTE BOMBS

With regard to the bombing of the Canton-Kowloon Railway, our informant said Canton people were not very apprehensive on that score. They felt that the only way the service could be disorganised was by blowing up a bridge or two, but in the case of the railway to Kowloon, the bridges were strongly defended by anti-aircraft batteries and the chances of the Japanese airmen hitting and seriously damaging any of these, especially the Shekling bridge which was particularly well guarded, was remote. Bombing of the railway track was an absolute waste of money for the Japanese and was worse than useless. Many bombs were usually wasted before a direct hit was made and then the repair work was generally completed in a few hours.

"So far as Canton is concerned," concluded our informant, "conditions are as near normal as you could possibly imagine. There is, of course, the ever present danger of bombing, but even that has ceased to cause much alarm to the population."

R.A.M.C. ASSN. HOLD ANNUAL DINNER

(Continued from Page 1)

Ecceles, Major G. H. Barry, Major G. T. L. Archer, Major W. E. Saunders, Major A. McMillan, Major F. C. Tibbs, Professor W. I. Gerrard, Dr. G. M. Hargreaves, Dr. I. Shaw, Dr. T. W. Ware, Sgt. Major A. A. Barton, Sgt. Major R. S. Powlesland and others.

The loyal toast was proposed by Colonel Blake. He referred in a short and witty speech to the progress made by the Association in the last two years.

He said: "I do not propose to make a long speech. Speeches are so very like babies—they are easily conceived but so hard to deliver. I wish, however, to make a few remarks about the tremendous growth of the Association during these two years. It is in a very large way due to the good work of a very energetic committee whose Chairman is Dr. Valentine."

He mentioned that the Association now had a membership of 160, of whom 26 were civilians. The accounts showed that they had a balance in hand of about \$440 against \$240 last year, which clearly demonstrated the growth of the Association. He referred to the help which the Association had been able to render to some refugees from Shanghai, and congratulated the Committee for their success. He was confident that with such an energetic Committee the Association would continue to flourish.

Dr. Valentine, in welcoming the guests, said that it was indeed an honour to see so many distinguished people present. He thanked them all for their presence and help in making the annual dinner such a success.

Surgeon Captain Ferguson, replying for the guests, thanked the Association for their hospitality. Dinner music was supplied by the orchestra of the 1st Battalion, the Seaforth Highlanders by kind permission of Lt-Col. J. Multhead and officers. A very enjoyable programme of entertainment was later furnished by Major Eccles, Corporal Rogers, Pte. Wiggins, Pte. Thompson and the R.A.M.C. Rhythm Boys. Lt. Wilder and Pte. Wilkins assisted at the piano.

CHINESE TAKE COTTON MILL

Shanghai, Nov. 5: Chinese military headquarters claim that 23 Japanese soldiers who have been holding the Sung Sing Cotton Mill on the south bank of Soochow Creek have been annihilated following two attacks by the Chinese forces.

Barricaded in the basement of the building and refusing to surrender their arms, the Japanese "doomed unit" succeeded in holding off the Chinese attacks for two days. On Tuesday a number of Chinese dare-to-die members broke into the building and fired point blank at the Japanese, killing nine, but were driven out. Yesterday, they stormed the mill and riddled the remaining Japanese defenders with bullets.

Five machine-guns were seized in addition to a huge quantity of other supplies.—

CABALLERO DETAINED

Valencia, Nov. 4. Largo Caballero was arrested by agents of the Republican Government to-day, when he was about to leave Valencia for Barcelona by car. He energetically protested against his arrest, and was finally released by intervention through M. Martino Barrio, President of the Cortes.

The incident aroused great indignation among Caballero's political friends, who state that this attempt to arrest him is the beginning of a direct action by the Government against the revolutionary leader.

Martino Barrio stated that the arrest was merely made because Caballero's papers were not in order.—

Haichow, Nov. 5: Despite a drizzle, five Japanese planes, flying in formation, rained 13 bombs on the Lunghai railway station yesterday morning. Several houses were understood to have been demolished whilst the number of casualties was still under investigation.—

BOMBING OF RAILWAYS

10,000 CASUALTIES

Nanking, Nov. 5: A manifesto was sent out jointly to-day by the Chinese railway workers unions to railway workers unions of various countries exposing Japan's deliberate aerial bombing of Chinese railways, and urging them to boycott Japanese goods, and reject the shipment of arms, munitions and raw materials to Japan.

Civilian casualties caused by the bombing of various railways by Japanese aircraft, according to the manifesto, have reached the staggering figure of 10,000. During a raid on the Shanghai-South Station on October 28 alone over 700 people were blasted to pieces.

The manifesto further reveals that 293 railway officers and workers have been killed and over 1,000 wounded by Japanese aerial bombings whilst executing their duties.

Concluding, the manifesto urges that railway workers unions in various countries instantly start a world-wide boycott of Japanese goods and refuse the shipment of arms, munitions and raw materials to Japan in order to check her atrocities in China.—
